Art Unit: 1616

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 3-15, and 23-25, drawn to method of treating, making and composition for sepsis or inflammatory shock.

---

Group II, claim(s) 2, 16-22, and 35-40, drawn to method of reducing the risk of sepsis or inflammatory shock.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: methods for treating and methods for reducing the risk of something are not necessarily the same. For example, a method for treating a heart attack (e.g. surgery) is different than a method for preventing a heart attack (e.g., exercise and moderate intake of fatty foods). Therefore, the contribution that the invention of Group I makes over the prior art is distinct over the contribution that the invention of Group II makes over the prior art.

*and a voicemail message was left*

A telephone call was made to Mr. Barrett<sup>A</sup> on 9/15/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1616

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JOHN D PAK whose telephone number is (703)308-4538. The examiner can normally be reached on Monday to Friday, 7:00 AM to 3:30 PM.
